

First Trimester Ultrasound: What you need to know

Chaired by Prof. Simon Meagher
and Prof. Hye Sung Won

SAMSUNG

Webinar series

Tuesday 8th August

Learning Objectives:

- Address the basic and advanced approaches to sonographic diagnosis and management of minor and major fetal malformation during the first trimester
- Provide an overview of the present and future directions of pre-eclampsia screening during all stages of the first trimester.
- Provide an up to date analysis of first-trimester cell-free DNA screening and provide an outline of the challenges that lie ahead in the future

Time	Mins	Item	Speaker – Prefix, full name
12:00	05	Welcome and Introduction	Prof. Simon Meagher and Prof. Hye Sung Won
12:05	20	Early Detection of fetal anomalies: A practical guide	Dr. Prathima Radhakrishnan
12:25	10	1st trimester fetal echocardiography: What we can learn from cases	Prof. Won-Joon Seong
12:35	25	Cell-free DNA : what every clinician needs to know	Prof. Fabricio da Silva Costa
13:00	25	Screening for Pre-Eclampsia – What's new and what's next?	Prof. Liona Poon
13:25	5	Break	
13:30	25	Panel discussion	Prof. Fabricio da Silva Costa, Prof. Simon Meagher, Dr. Prathima Radhakrishnan, Prof. Won-Joon Seong and Prof. Hye Sung Won
13:55	5	Feedback and close	Prof. Fabricio da Silva Costa
