

## SCIENTIFIC PROGRAM

	FRIDAY, OCTOBER 27	SATURDAY, OCTOBER 28
	<b>GYNECOLOGICAL ULTRASOUND: FROM BASIC TO ADVANCED</b>	<b>ENDOMETRIOSIS I</b>
8:30-9:00	Image optimization and basic evaluation of the female genital tract - <b>Dr. Roberto Albinagorta</b>	IDEA Consensus: Systematic Ultrasound Evaluation in Patients with Suspected or Diagnosed Endometriosis - <b>Dr. Roberto Albinagorta</b>
9:00-9:30	MUSA Consensus: terminology and description of uterine pathology - <b>Dr. Roberto Albinagorta</b>	Endometriomas: from simple to complex - Typical and atypical images, decidualization and malignancy - <b>Dr. Juan Luis Alcázar</b>
9:30-10:00	Focal endometrial pathology: how to evaluate and describe using IETA terminology - <b>Dr. José Carlos Elías</b>	More frequent than we thought: Endometriosis of the urinary and digestive tract - <b>Dr. Roberto Albinagorta</b>
10:00-10:30	3D volumetry in gynecological ultrasound and infertility: Tips & tricks - <b>Dr. Rommel Lacunza</b>	The lateral compartment of the pelvis and a proposed addendum to the IDEA consensus - <b>Dr. Juan Luis Alcázar</b>
	Break	Break
	<b>APPLICATIONS OF ULTRASOUND IN INFERTILITY: WHAT EVERY SPECIALIST SHOULD KNOW</b>	<b>ENDOMETRIOSIS II</b>
11:00-11:30	Assessment of the ovary in fertility, follicular count, 2D/3D, manual, automated: What is best? - <b>Dr. Juan Luis Alcázar</b>	Evaluation of the correlation of ultrasound with surgical findings using the classification #Enzian - <b>Dr. Juan Luis Alcázar</b>
11:30-12:00	Current status of the diagnosis of uterine malformations: Comparison of ASRM classification and the ESHRE/ESGE consensus - <b>Dr. Juan Luis Alcázar</b>	Superficial endometriosis: Is ultrasound diagnosis possible? - <b>Dr. Juan Luis Alcázar</b>
12:00-12:30	Evaluation and management of endometrial pathology in reproduction: Sonohysterography, office hysteroscopy or both? - <b>Dr. Marco Garnique</b>	Clinical and ultrasound characteristics of patients evaluated by ultrasound mapping for suspected endometriosis using the #Enzian classification in a specialized center in Lima-Peru - <b>Dr. Roberto Albinagorta</b>
12:30-13:00	Ultrasound study of tubal patency: Can HyFoSy replace conventional HSG? - <b>Dr. Juan Luis Alcázar</b>	DEMO LIVE: systematic examination in deep endometriosis
	LUNCH	LUNCH

	<b>SOME CONTROVERSIES IN HUMAN REPRODUCTION</b>	<b>SPECIAL ASPECTS OF ULTRASOUND IN GYNECOLOGY</b>
15:00-15:30	Controversies in the diagnosis of dysmorphic uterus or "T" uterus - <b>Dr. Juan Luis Alcázar</b>	Ultrasound in the pediatric and adolescent patient: What should we look for and what is the best approach? - <b>Dr. Melissa Valdez</b>
15:30-16:00	Indications for metroplasty in the septate uterus - <b>Dr. Juan Luis Alcázar</b>	Update on the diagnosis and management of the isthmocele: When is it necessary to intervene? - <b>Dr. Juan Luis Alcázar</b>
16:00-16:30	The dilemma of the patient with endometriosis and reduced ovarian reserve: What to do? - <b>Dr. Marco Garnique</b>	SPONSORED SYMPOSIUM: Dynamic ultrasound in the evaluation of pelvic floor pathology - <b>Dr. Roberto Albinagorta</b>
	Break	Break
	<b>UPDATE IN THE EVALUATION OF OVARIAN PATHOLOGY</b>	<b>NORMAL AND PATHOLOGICAL INITIAL PREGNANCY</b>
17:00-17:30	The IOTA-ADNEX model in clinical practice: examples of its application in real cases - <b>Dr. Igor Huerta</b>	Normal development of early pregnancy: gestational sac, yolk vesicle, embryo and cardiac activity, chorionicity in twin pregnancy - <b>Dr. Roberto Albinagorta</b>
17:30-18:00	Identification of common adnexal masses by pattern recognition - <b>Dr. Igor Huerta</b>	Non-viable gestation: diagnosis and current management – <b>Dra. Melissa Peláez</b>
18:00-18:30	The IOTA-ADNEX model and the O-RADS classification: Is there a better one or are we talking about the same thing? - <b>Dr. Juan Luis Alcázar</b>	Pregnancy in the cesarean scar: A challenge for diagnosis and treatment - <b>Dr. Guillermo Diez</b>
18:30-19:00	Adnexal masses and pregnancy: How important is the problem and what should we do? - <b>Dr. Juan Luis Alcázar</b>	Update on the diagnosis of tubal ectopic pregnancy and management of PUL – <b>Dra. Abigail Oroche</b>
