

ISUOG Newsletter

October 2020

This year has been about reimagining, reinventing, and proactively reacting. I am proud of how ISUOG has excelled at this, from the rapid [response to the COVID19](#) pandemic to the innovative delivery of our educational courses and [World Congress](#) completely online.

Without a doubt, the Virtual Congress is already the leading event in the speciality, with 200 invited faculty delivering an unmatched [scientific program](#) through five parallel streams, three of them subtitled into [Chinese](#), [French](#) and [Spanish](#), and with the opportunity to watch the content live or on demand. The Congress will also exceed your expectations with the networking and interaction opportunities and the exhibition and wellbeing area. Register now to attend and celebrate the [30th anniversary](#) with us.

Sincerely,

Prof. Dr C.M. (Katia) Bilardo

Sponsored content

We look forward to interacting with you virtually at ISUOG 2020. Stop by the Roche booth to learn about the Harmony prenatal test and the combined benefits of targeted NIPT and ultrasound. Prof. Dr. Karl Oliver Kagan will discuss "The 10 Golden Rules of NIPT" on 16 October. On 17 October we will feature Prof. Dr. Rabih Chaoui's presentation, "22q11.2 microdeletion syndrome: ultrasound features & opportunities for screening using cfDNA". Come gain valuable insight into the benefits of a targeted NIPT menu on the 18 October. New information will be posted daily.

Fun online social events

Are you missing connecting with like-minded clinicians? At the Virtual World Congress we are organising two online social events called Speed Socials so that you can meet new and old contacts. Free for all Congress attendees, these socials will allow you to video-chat with people for 3 minutes before being moved to the next person.

First Speed Social - Friday 16 October (19:30-20:30 BST)
Second Speed Social - Sunday 18 October (07:00-07:45 BST)

[Join us](#)

UOG in October

The October issue of Ultrasound in Obstetrics & Gynecology includes a State-of-the-Art Review on [artificial intelligence in ultrasound in obstetrics and gynecology](#), a study on the survival outcome in [severe left-sided congenital diaphragmatic hernia](#) with and without FETO in a country with suboptimal neonatal management, a study on [translabial ultrasound for grading of obstetric anal sphincter injury](#), and a study on the utility of [lung ultrasound assessment for probable SARS-CoV-2 infection](#) during pregnancy and universal screening of asymptomatic individuals.

Looking after you

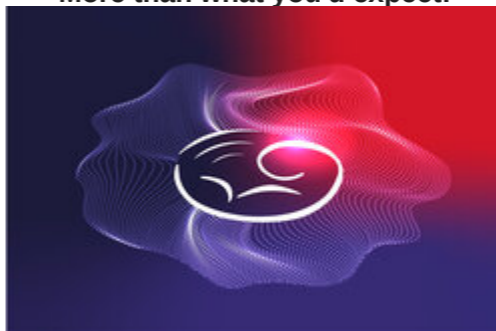

Our community's wellbeing is extremely important to us and that's why we've created a wellbeing zone in the Virtual World Congress platform. You'll be able to take part in yoga sessions, watch videos on nutrition, learn about improving your CV, and listen to calming music.

Prof. Tom Bourne is giving an insightful plenary talk on *Burnout and wellbeing: being a doctor can be bad for your health*, Sunday 18 October, which shouldn't be missed.

View the topics of the other keynote speakers [here](#).
