

This month is all about heart: [education](#), research and passion, which is one of our [values](#). We are passionate about who we are and about what we do. Our members are at the heart of ISUOG. They are ISUOG, [they make ISUOG](#).

We are passionate about education and women's health. We [#LoveUltrasound](#) and work to bring [educational opportunities](#) and [research](#) in obstetrics and gynecology to you. This month, we are also going to Oman with our [Outreach program](#).

[Registration](#) and [abstract submission](#) is open for our 30th World Congress on Ultrasound in Obstetrics and Gynecology. We'd love to see you in Glasgow, to celebrate our 30th anniversary with us!

Best wishes,
The ISUOG Team

Two Free Lectures

#LoveUltrasound

As registration for ISUOG's 30th World Congress is now open, we have provided you with free access to the lecture, ["Abnormal Heart Rhythm: How to Diagnose and How to Manage"](#), from the Berlin World Congress in 2019, so that you can see what you missed from [#ISUOG2019](#).

As our focus this month is around the heart, we have also made available a lecture from the 2018 ISUOG World Congress [delivered by Prof. Rabih Chaoui](#), when receiving the Stuart Campbell Award for Education.

Both lectures will be accessible in February. Interested in accessing more of our content? [Become a member](#) to access all of our content and discounted fees for our [30th World Congress](#).

Upcoming ISUOG events

[Advances in Fetal Echocardiography](#)
21-22 February 2020
London, UK and live streamed globally

[ISUOG Basic Training: Fetal Anomalies](#)
02 April 2020, Sibiu, Romania

[Basic Training 20+2 Planes: Normal and Abnormal Fetal Anatomy](#)
02 April 2020, Cairo, Egypt

[16th ISUOG International Symposium](#)
03-04 April 2020
Cairo, Egypt and live streamed globally

[State-of-the-Art-Ultrasound in Pregnancy](#)
(in partnership with SMFM)
16-18 April 2020
Washington, USA and live streamed globally

[Basic Training: Fetal Anomalies and Gynecology](#)
24-25 April 2020
Athens, Greece and live streamed globally

[Doppler and Maternal Vascular Imaging](#)
23-24 July 2020
London, UK and live streamed globally

[ISUOG events calendar](#)

Meet our new [Trustee](#), Prof. Fabricio Da Silva Costa

Fabricio is a Prof. at the Department of Obstetrics and Gynecology, Ribeirão Preto Medical School, University of São Paulo, Brazil. He is also the Head of Ultrasound Services and Visiting Professor at Monash University (Melbourne, Australia), an Ambassador for the International Society for Obstetrics and Gynecology for Latin America and a recently elected Trustee.

As a Trustee, Fabricio sees a big opportunity to propose his ideas regarding the education and globalization of ISUOG to his Trustee colleagues, while being able to collaborate with them to reach ISUOG's goals and mission. His vision for the future is for ISUOG to become the leading organization promoting improvements to women's health and that our education activities reach throughout areas such as Latin America, Asia and Africa.

Fabricio was based in Melbourne (Australia) for 10 years, where he was Associate Professor at Monash University, Head of Monash Health Perinatal Service and Medical Director of Monash Ultrasound for Women, before his return to Brazil in July 2018. His main areas of research are pre-eclampsia and first-trimester screening and he has over 120 published papers on peer-reviewed journals.

Stay tuned next month to meet another new Trustee, Prof. Liona Poon

Meet one of our travel grant winners from Berlin

Every year, ISUOG makes up to six [Travel Grants](#) available for young researchers from under-served regions to attend our World Congress.

"I was privileged to be among the six Travel Grant winners for the ISUOG Congress Berlin, for which I am very grateful, and I say a very big THANK YOU to the organisers. The Congress gave me the opportunity of meeting face to face with top researchers."

The sessions I enjoyed most were those on fetal anomaly screening in first trimester, which I intend to research more about in my practice. Also the simplified way of teaching mid-trimester anomaly ultrasound using the 20+2 approach was intriguing. The sessions on ISUOG Basic Training practical curriculum were also very impactful sessions, which helps on how to impact knowledge on trainees."

I really enjoyed the Congress party which was one of my benefits as a Travel Grant winner. I look forward to an even more exciting Congress in Glasgow in 2020."

- Dr Janet Akinmoladun, Nigeria, ISUOG Travel Grant winner 2019
