

ISUOG WORLD CONGRESS
15-18 SEPTEMBER 2024
BUDAPEST

SCIENTIFIC PROGRAM OVERVIEW

Please note this program is
subject to change.

DAY 0: SATURDAY 14 SEPTEMBER PRE-CONGRESS COURSES

(booked separately to main Congress)

	Fetal focus: expert approaches to heart and brain imaging	Sonography for ovarian and deep endometriosis: knowledge is power
Time (CEST)	Room	
	Hungexpo F1-3	Hungexpo G4-6
09:00 - 10:30	Fetal focus: expert approaches to heart and brain imaging - part 1	Sonography for ovarian and deep endometriosis: knowledge is power - part 1
10:30 - 11:00	Break	
11:00 - 12:30	Fetal focus: expert approaches to heart and brain imaging - part 2	Sonography for ovarian and deep endometriosis: knowledge is power - part 2
12:30 - 13:30	Lunch	
13:30 - 15:00	Fetal focus: expert approaches to heart and brain imaging - part 3	Sonography for ovarian and deep endometriosis: knowledge is power - part 3
15:00 - 15:30	Break	
15:30 - 17:00	Fetal focus: expert approaches to heart and brain imaging - part 4	Sonography for ovarian and deep endometriosis: knowledge is power - part 4

DAY 1: SUNDAY 15 SEPTEMBER

Time (CEST)	Room	
	Hall P1-2	Hall F1-3
08:30 - 08:40	[PL] Congress opening and welcome message	
08:40 - 09:10	[PL] Imaging ultrasound before 24 weeks of pregnancy: WHO perspective - Özge Tunçalp	
09:10 - 09:40	[PL] Stuart Campbell lecture: exome sequencing as a first-tier test for fetuses with severe central nervous system structural anomalies	
09:40 - 10:10	[PL] Caesarean section: should we be scared? - Judith Huirne	
10:10 - 10:40	Break	
10:40 - 11:25	[PL] Top abstracts 2024	
11:25 - 12:10	[AGM] ISUOG Annual General Meeting	
12:10 - 13:40	Lunch and sponsored symposium	
13:40 - 14:50	[WS] AI is everywhere: separating hype from hope	[WS] IOTA today
14:50 - 15:20	Break	
15:20 - 15:50	[PL] Should CPR be used in the management of term pregnancy? - Francesc Figueras	
15:50 - 16:20	[PL] Opportunities and challenges with AI in healthcare - David Rhew	
16:20 - 17:10	[PL] Ian Donald Gold Medal and Stuart Campbell Award presentation ceremony	
17:10 - 17:30	[PL] Opening ceremony	
17:30 - onwards	Welcome reception	

DAY 2: MONDAY 16 SEPTEMBER

	Hall P1-2	Hall H	Hall P3	Hall F1-3	ISUOG forum*
08:30 - 09:10	[MC] Much about multiples	[MC] Third trimester anatomy scan: is it worth it?	[MC] Intrauterine repair of open spina bifida: what is the best option?	[MC] Ultrasound examination: the key to managing gynecological concerns	Interviews
09:10 - 09:20	Interval				
09:20 - 10:20	[MC] Humans and machines: learning from each other	[OC] Evaluating placental function	[OC] Interventions to fix the fetus	[OC] Imaging cancer I	[FORUM] Congenital uterine anomalies: are we exaggerating? (40 mins)
10:20 - 11:00	Break				
11:00 - 11:40	[MC] Harmonizing prenatal testing: expert strategies and protocols	[OP] Fetal growth I	[OP] Multiple applications of Artificial Intelligence	[OP] Imaging cancer II	Interviews
11:40 - 11:50	Interval				
11:50 - 13:00	[WS] Starting pregnancy right: first trimester evaluation	[WS] New insights in fetal growth	[MC] Deep fetal phenotyping to facilitate genomic diagnosis [in collaboration with ISPD]	[WS] Ultrasound in the management of fibroids	Interviews (40 mins)
13:00 - 14:30	Lunch				
14:30 - 15:30	[OC] Managing ovarian masses	[OC] Screening for chromosomal anomalies	[OC] Novel AI for prediction of pregnancy outcomes	[OC] Using antepartum and intrapartum ultrasound to improve outcomes	Interviews (40 mins)
15:30 - 15:40	Interval				
15:40 - 16:20	[MC] The placental frontier: understanding and managing anomalies in maternal-fetal medicine	[OP] What is new in evaluation of the fetal heart?	[OP] Fetal growth II	[OP] Managing ovarian masses	[FORUM] All about MRI in obstetrics
16:20 - 17:00	Break				
17:00 - 18:10	[WS] Echo essentials for everyone	[WS] Unravelling diagnostic options in prenatal care: from ultrasound findings to molecular precision	[WS] Double insight: clinical challenges of twin pregnancies	[WS] Navigating the spectrum of placenta accreta to prevent obstetric tragedies	[FORUM] Fertility and cancer: an ongoing societal challenge (40 mins)

* these sessions are not accredited

DAY 3: TUESDAY 17 SEPTEMBER

	Hall P1-2	Hall H	Hall P3	Hall F1-3	ISUOG forum*
08:30 - 09:10	[MC] Triple-A: All About Aortas	[MC] From prediction to prevention: the convergence of screening for pre-eclampsia, preterm birth and stillbirth	[MC] Persistent occiput posterior fetuses: make your life easier with ultrasound	[MC] AI in gynecological ultrasound: becoming reality	Interviews
09:10 - 09:20	Interval				
09:20 - 10:20	[WS] Let's focus on POCUS	[OC] Addressing the heart of the question: imaging the fetal heart	[OC] New insights into the fetal brain	[OC] Ultrasound applications for fertility I	[FORUM] Ergonomics for ultrasound users: how to reduce injuries whilst scanning (40 mins)
10:20 - 11:00	Break				
11:00 - 11:40	[MC] Debate: when to deliver the appropriately grown fetus	[OP] Pelvic pain and endometriosis I	[OP] Curing the fetus: new ideas about fetal interventions	[OP] How can ultrasound help with early pregnancy management	Interviews
11:40 - 11:50	Interval				
11:50 - 13:00	[WS] More than just a pretty face: deep dive into the fetal face	[WS] Controversies and updates in congenital fetal infections	[WS] The abnormally invasive placenta: what to do	[WS] Early pregnancy: diagnosing pregnancy location and managing complications	[FORUM] Basics of ISUOG education and training (40 mins)
13:00 - 14:30	Lunch				
14:30 - 15:30	[OC] Pelvic pain and endometriosis II	[OC] Screening for pregnancy complications I	[OC] Fetal growth disorders: from diagnosis to delivery	[OC] Early pregnancy complications	Interviews (40 mins)
15:30 - 15:40	Interval				
15:40 - 16:20	[MC] Screening of CNS anomalies: going one step further	[MC] Point of care ultrasound (POCUS) in obstetrics and gynecology	[OP] Multiple approaches to fetal anomalies I	[OP] Ultrasound applications for fertility II	[FORUM] Are you familiar with the ISUOG guidelines?
16:20 - 17:00	Break				
17:00 - 18:10	[WS] Current perspectives on adenomyosis and endometriosis	[WS] The cycle of perinatal health: from prenatal screening to postpartum care	[WS] The fetal chest interventions for cardiac malformations and CDH	[WS] How ultrasound can help you manage complications of labor	Interviews (40 mins)

* these sessions are not accredited

DAY 4: WEDNESDAY 18 SEPTEMBER

	Hall P1-2	Hall H	Hall F1-3	ISUOG forum*
08:30 - 09:10	[MC] Managing ultrasound findings at the routine gyne check-up	[MC] CMV: workup and management	[MC] The adolescent gyne patient: the role of ultrasound	Interviews
09:10 - 09:20	Interval			
09:20 - 10:20	[OC] Multiple approaches to fetal anomalies II	[OC] Screening for pregnancy complications II	[OC] Ultrasound guided procedures in urogynecology I	[FORUM] Mature versus immature teratoma: monsters in disguise (40 mins)
10:20 - 11:00	Break			
11:00 - 11:40	[OP] Fetal brain	[OP] Screening for pregnancy complications III	[OP] Ultrasound guided procedures in urogynecology II	Interviews
11:40 - 11:50	Interval			
11:50 - 13:00	[WS] Genetics of fetal brain development	[WS] Lifecycle of the woman: pregnancy and future health of her and her fetus	[WS] Using ultrasound to guide treatment in gynecology and oncology	[FORUM] Go for gold: pearls of wisdom for the next generation by ISUOG gold medallists (40 mins)
13:00 - 14:30	Lunch			
14:30 - 15:30	[OC] Fetal and maternal medicine I	[OC] Multiple pregnancy I	[OC] Bleeding, endometrial and myometrial pathology I	
15:30 - 15:40	Interval			
15:40 - 16:20	[OP] Screening for pregnancy complications IV	[OP] Multiple pregnancy II	[OP] Endometrial and myometrial pathology II	
16:20 - 16:30	Break			
16:30 - 17:30	[PL] Closing plenary: the power of ultrasound			

* these sessions are not accredited
