

# Henan Province Forum on Standardization and New Progress in OB & GYN Ultrasound

Saturday, 31st Aug -Sunday, 1st Sep, 2024

Zhengzhou, China

## Agenda

### Day 1

Time	Topic	Speaker
8:30-9:00	Opening	
9:00-10:00	Artificial intelligence in ultrasound imaging in obstetrics	Prof. Aris Papageorghiou
10:00-10:40	Early screening of FH US: What can we do	Prof. Qingqing Wu
10:40-10:50	ISUOG introduction	Prof. Qingqing Wu
10:50-11:00	Tea break	
11:00-12:00	Earlier screening for fetal abnormalities	Prof. Aris Papageorghiou
12:00-12:30	Live Demo	Prof. Aris Papageorghiou
Lunch		
13:30-14:10	Application of CEUS in the diagnosis of uterine lesions	Prof. Chen Shaoqi
14:10-14:50	MDT in fetal CNS abnormalities	Prof. Fang Yang
14:50-15:00	Tea break	
15:00-15:40	Ultrasound examination and report writing of endometriosis	Prof. Zhang Xinling
15:40-16:20	Interpretation of ASE fetal echocardiography guidelines	Prof. Zhao Sheng
16:20-17:00	Interventional treatment of cesarean scar pregnancy under ultrasound guidance	Prof. Zhu Jiang

### Day 2

Time	Topic	Speaker
8:20-9:00	IOTA and O-RADS Guidelines: Clinical Significance	Prof. Xie Hongning
9:00-9:40	Research progress of artificial intelligence in ultrasound diagnosis of ovarian tumors	Prof. Sun Litao

9:40-10:20	Ultrasound monitoring and evaluation of fetal growth restriction	Prof. Luohong
10:20-10:30	Tea break	
10:30-11:10	Traps in ultrasound diagnosis of ectopic pregnancy in special areas	Prof. Li Hezhou
11:10-11:50	The clinical application of O-RADS classification in adnexal masses	Prof. Wang Ruili
11:50-12:00	Closing
