

Dear "[FNNAME]" "[LNNAME]",

We have some exciting news and updates for you this month, including:

- New research from [UOG Journal](#)
- [Educational resources](#) for members
- Updates from [Basic Training](#) and [Outreach](#)
- Upcoming [Education courses](#) and [events](#)
- [WFUMB and ISUOG](#) entered into a new partnership
- Hear from our [Top Abstract and Young Investigator- Gynecology winner from ISUOG2019](#), Christopher Kyriacou

Best wishes,  
The ISUOG Team

#### UOG in December

The December issue of Ultrasound in Obstetrics & Gynecology includes an article outlining the [top 10 global research priorities](#) for multiple pregnancy, a [systematic review](#) on the performance of middle cerebral artery peak systolic velocity for the prediction of anemia in transfused and untransfused fetuses, a study describing a [new first-trimester sonographic marker of spina bifida](#), and a study on the impact of [three definitions of septate uterus](#). Also out this month is a [new video abstract](#) accompanying a randomized controlled trial of elective delivery vs routine obstetric care in fetal gastroschisis.

[Join ISUOG as a Journal member](#) for exclusive access to all content from the UOG Journal.

[UOG Highlights](#)

#### Upcoming Education Courses

In 2020, we will be hosting courses on topics ranging from [Modern management of twins](#) to [Fetal Echocardiography](#) and the [State of the art Ultrasound in pregnancy](#), and much more. Hosted jointly with SMFM, the [Modern Management in Twins](#) course will take place in February and can be attended on site in Dallas (USA) or via [live stream](#). We will also be hosting the [Fetal Echocardiography](#) course in London on 21-22 February. The course will include clinical discussions, case studies and theoretical lectures.

[Education courses](#)

#### Upcoming ISUOG events

[Modern management in twins: all you need to know](#) (in partnership with SMFM) 04 February 2020, Dallas, USA and live streamed globally

[Advances in fetal echocardiography](#) 21-22 February 2020, London, UK and live streamed globally

[ISUOG Basic Training: Fetal Anomalies](#) 02 April 2020, Sibiu, Romania

[Basic Training 20+2 Planes: Normal and Abnormal Fetal Anatomy](#), 02 April 2020, Cairo, Egypt

[16th ISUOG International Symposium](#), 03-04 April 2020, Cairo, Egypt and live streamed globally

[State of the art ultrasound in pregnancy](#) (in partnership with SMFM) 16-18 April 2020, Washington, USA and live streamed globally

[Basic Training Athens](#) 24-25 April 2020, Athens, Greece

[Doppler and maternal vascular imaging](#) 23-24 July 2020, London, UK and live streamed globally

[30th World Congress on Ultrasound in Obstetrics and Gynecology](#), 17-21 October 2020, Glasgow, UK

[ISUOG events calendar](#)

#### Education Resources for Members

We endeavour to have a broad range of educational resources for all training and professional levels for our members. In addition to the 35 [Learning modules](#), we are also constantly updating [VISUOG](#), our online encyclopedia, with the latest additions being chapters on [Congenital High Airway Obstruction](#) and [Hydrometrocolpos](#). Our [Basic Training lectures](#) are also now available in five languages, including [Russian](#), [Spanish](#) and [Chinese](#).

[ISUOG Resources](#)

#### Basic Training

This November, Basic Training returned to Colombia for part two of our course in Medellin in partnership with Fundared Materna and FECOPEN. The course was a huge success, with 60 delegates onsite and over 100 delegates from 6 satellites attending 2 days of theoretical lectures. 30 residents stayed on for a further two days practical training, where they were taught how to perform the ob/gyn ultrasound scan with the help of 7 instructors and 70 volunteer patients. At the end of the course, 5 delegates chose to take a certification assessment, and received their certificates of completion of Basic Training! [Click here](#) to find out more about certification, and [how you can attend](#) a Basic Training course!

[Basic Training](#)

#### Outreach in Oman

ISUOG [Outreach](#) has completed Phase I Trip 1 of the Outreach Program in Rwanda in October. Training 26 trainees from across the country. ISUOG has partnered with the Rwandan Government and the Rwandan Society of Obstetrics and Gynecology (RSOG) to deliver the program in order to build the capacity of ultrasound training in the country. All of this leading to a healthier future for Rwandan women! [Read our latest blogs to discover more about the work we did on the ground.](#)

[Outreach](#)

#### ISUOG-WFUMB Partnership

ISUOG has entered into a [partnership](#) with World Federation for Ultrasound in Medicine and Biology (WFUMB) to develop [education](#) in ultrasound in obstetrics and gynecology. WFUMB and ISUOG will also collaborate in [training and capacity building](#) in the underserved regions of the world.

#### Hear from the Top Abstract and Young Investigator- Gynecology winner from ISUOG2019, Christopher Kyriacou

My research began at Queen Charlotte's and Chelsea Hospital in London, working under the supervision of Professor Tom Bourne and his team in Early Pregnancy, investigating the mechanisms and consequences of early pregnancy complications. My focus is risk prediction in Pregnancy of Unknown Location (PUL) and diagnostics in Ectopic Pregnancy (EP). For women these can be both life-threatening and traumatic. We aim to optimise current methods of classifying PUL whilst investigating markers that provide superior EP diagnostic capability. Attending ISUOG in 2018 allowed the opportunity to gain knowledge from world leaders and was highly motivating when presenting our exciting novel findings on microRNA in 2019. It means so much to be awarded [top abstract](#) and [young investigator \(gynecology\)](#) and am grateful for the opportunity to share our work with international experts in ultrasound.

#### CME Activities announcement

We are working towards implementing a new Learning Management System to host our CME activities that will provide the user with an overall better experience, including greater engagement, simpler user interface and increased responsiveness. The new platform will be ready in February 2020. We are trying to minimise the inconveniences for our members, however, the platform that is currently supporting our CME activities will not be available from 1<sup>st</sup> January 2020 and the CME activities won't be available for 2 months.

We apologise for any inconvenience this may cause. We are sure the new platform will provide our members with a better experience and we hope you enjoy using ISUOG CME activities in the future. Please complete any in-progress activities before this date to receive your accreditation.

Help us send you information specific to your interests! [Log in](#) and go to 'My ISUOG' to update details such as your speciality, so we can send you the most specific content. Please also make sure your other details are up to date.

Please review our [Privacy Policy](#).
