

Title area of slide to go in this area

The logo of
your unit,
university or
hospital

Presenter in bold

Other authors in regular

Fetal Medicine Unit, Department of Obstetrics,
St. Elsewhere University Hospital

Aims and Methods

Remember

Large and clear font
Fewer words allow for a clearer presentation
Do not write down your whole abstract
you only have 3 minutes for the oral presentation

If you over-run

You are being unfair to other presenters
You will not get questions
The chairperson will stop you

For ultrasound images

Ensure highest possible resolution
Crop the image to the area of interest
Ensure patient anonymity!

Results

Give main results first

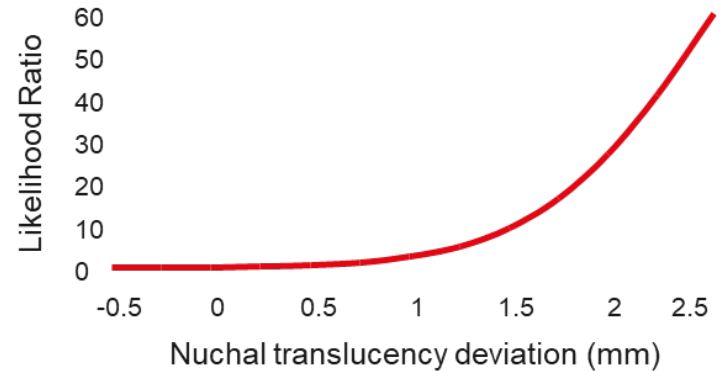

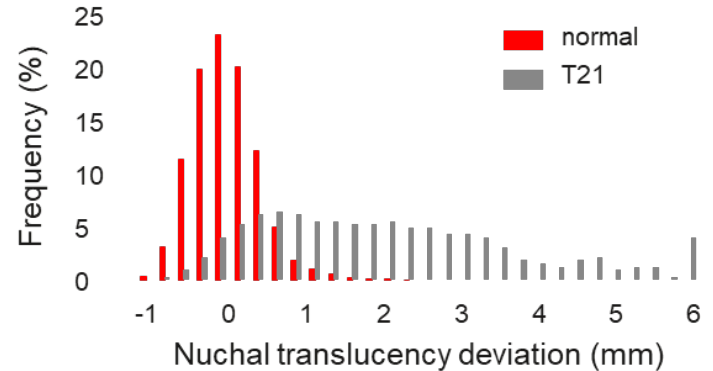

Basic numbers before complicated results

Keep font size and spacing uniform

Never less than 16 point font size

Graphs

- Ensure all axes are labelled
- Avoid using overcomplicated graphs
- Ensure all figures are aligned

Conclusions

Have a simple conclusion – usually one sentence

Ensure it answers the aims

You may want to discuss

- limitations of your study
- future directions
