

ISUOG Newsletter

The ISUOG President and Board of Trustees express their sympathy, encouragement and support towards all health professionals fighting the COVID-19 virus. A free webinar series will be available in the coming weeks to provide learning opportunities and practical guidance for ObGyn and allied healthcare professionals. [An Opinion article](#), which reviews currently available clinical and research data on novel coronavirus infection in pregnancy, has been published in *Ultrasound in Obstetrics & Gynecology*, along with an [accompanying video presentation](#). Other initiatives to support our community and provide leadership are being planned, which will feature in the Journal and on the ISUOG website, so please check for updates.

March 2020

This month, we're excited to bring you the following updates:

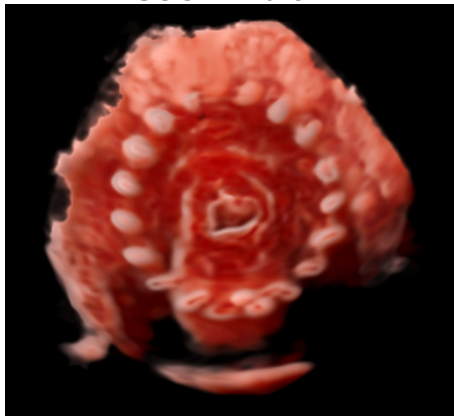

- 1 month until the [abstract submission deadline](#) and other [Congress updates](#)
- New research from [UOG Journal](#)
- Prepare for the [State-of-the-Art Ultrasound in Pregnancy](#), ISUOG & SMFM joint symposium
- Upcoming [Basic Training courses](#) and the [16th ISUOG International Symposium](#)
- Meet one of our new [Trustees](#), Prof. Liona Poon
- Hear from Dr Jha Anamika, one of our [Travel Grant winners](#) from [#ISUOG2019](#)
- [Volunteer](#) for one of our committees

Best wishes,
The ISUOG Team

ISUOG is supporting the Endometriosis Awareness Month and has made the Masterclass on ['A Practical Guide to the Diagnosis and Surgical Management of Endometriosis and Assessment of Women with Pelvic Pain'](#) from ISUOG2019 available to you. For more content on Endometriosis, watch the lecture by Prof. George Condous on [IDEA consensus for the classification of endometriosis](#).

UOG in March

The March issue of *Ultrasound in Obstetrics & Gynecology* includes a randomized trial comparing antral follicle count with serum anti-Müllerian hormone level for [determination of gonadotroin dosing in in-vitro fertilization](#), studies on development and validation of the QUIPP App v2 for prediction of spontaneous preterm birth in [asymptomatic high-risk women and women with symptoms of threatened preterm labor](#), and a study on expected-value bias in routine third-trimester growth scans.

Your support of the White Journal is crucial to its success so [become an ISUOG journal member](#) and access all of the content today!

[UOG Highlights](#)

Updates on ISUOG's 30th World Congress

[Registration](#) and [accommodation booking](#) for our 30th World Congress on Ultrasound in Obstetrics and Gynecology is open!

You can now browse our list of [masterclass speakers](#) and [provisional World Congress program](#) to find out more about what is in store for Glasgow.

[Become an ISUOG member](#) today for discounted rates on our 2020 World Congress!

The 16th ISUOG International Symposium

Join us on April 3rd, in the historical city of Cairo, for the 2-day international symposium, delivered by international faculty and local experts. View the [preliminary program](#) to see what is in store and please note that this event has been granted 21 European CME credits.

ISUOG Basic Training is pleased to announce that you can also join Prof. dr Katia Bilardo and Dr Mohammed Kamal at our [precongress course](#), ['ISUOG Basic Training 20 + 2 Planes: Normal and Abnormal Fetal Anatomy'](#), delivered in partnership with the Egyptian Fetal Medicine Foundation (EFMF). Watch Dr Trish Chudleigh's lecture on ['the 20 + 2 planes approach to the routine mid-trimester scan'](#) or visit the [course's resource page](#) to prepare.

[Register to attend](#)

Upcoming ISUOG Events

[ISUOG Basic Training: Fetal Anomalies](#)
02 April 2020, Sibiu, Romania

[Basic Training 20 + 2 Planes: Normal and Abnormal Fetal Anatomy](#)
02 April 2020, Cairo, Egypt

[16th ISUOG International Symposium](#)
03-05 April 2020, Cairo, Egypt

[State-of-the-Art Ultrasound in Pregnancy](#) (in partnership with SMFM)
16-18 April 2020
Washington, USA and livestreamed globally

[Basic Training: Fetal Anomalies and Gynecology](#)
24-25 April 2020
Athens, Greece and livestreamed globally

[Doppler and Maternal-Vascular Imaging](#)
23-24 July 2020
London, UK and livestreamed globally

[ISUOG events calendar](#)

State-of-the-Art Ultrasound in Pregnancy 16-18 April 2020 Washington DC, USA + Livestreamed

Interested in improving your knowledge on ultrasound in pregnancy? On April 16-18 2020, you can join ISUOG and the Society for Maternal-Fetal Medicine (SMFM) for a joint symposium on [State-of-the-Art Ultrasound in Pregnancy](#). The symposium will be chaired by leading experts from both America and Europe in order to provide a broader consideration of the topics and the differences in practice.

To help prepare you for this course, you can watch Prof. Jon Hyett's lecture ["screening for chromosomal abnormalities in daily practice: what every clinician needs to know"](#) from [#ISUOG2019](#) or Dr Simon Meagher's lecture, ["first trimester diagnosis of fetal cardiac malformation: are we ready?"](#)

Visit our [supplement your learning page](#) to read more on the [topics covered](#) over this 2-day joint symposium.

[Become an ISUOG member](#) today to benefit from discounted fees for this course!

[Register now](#)

Less than 1 Month Until the Abstract Submission Deadline

Less than 1 month until the [abstract submission](#) for our [30th World Congress on Ultrasound in Obstetrics and Gynecology](#) closes. Look at all the [topics](#) you can choose from and remember to submit your abstracts [before April 1st](#)!

Visit our website for guidance on [abstract submission](#), along with [travel Grant information](#) and last year's [award-winning abstracts](#). You can find all of the ISUOG2019 abstracts in the [abstract book](#) from the Congress.

If you are submitting an abstract, remember to do so before registering to attend [#ISUOG2020](#), in order to receive a [£85 discount](#) on your full registration fee.

[Submit your abstract today](#)

Coming up from Basic Training

Coming up in April there are two more [Basic Training courses](#) that you can attend.

On April 2nd, you can attend the ISUOG Basic Training course on ["Fetal Anomalies"](#) in Sibiu, Romania. This course will be delivered entirely in English and is in partnership with the Romanian Society of Ultrasound in Obstetrics and Gynecology (SRUOG). Watch Dr Seshadri Suresh's lecture, ["distinguishing between normal and abnormal appearances of the skull and brain"](#), check out the [preliminary program](#) and visit the [course's resource page](#) to prepare.

From April 24-25, we will be in Athens, Greece for a Basic Training Course on ["Fetal Anomalies and Gynecology"](#). This 2-day event will be chaired by Dr Nikos Vrachnis and Prof. Aris Papageorgiou, entirely in English. Check out the [course program](#), [course resources](#) and [register to attend](#) now! Not able to attend onsite? Then join us via [livestream](#) or host a [satellite](#)!

[Become an ISUOG member](#) today for discounted rates to attend!

[Find out more](#)

Meet our new Trustee, Prof. Liona Poon

"I am an academic specialist in Obstetrics and Maternal Fetal Medicine, devoted to improving maternal and fetal health with the use of ultrasound."

As a Trustee for ISUOG, I can leverage a wider platform to realise my goal of improving obstetric care and ultrasound standards worldwide, through clinical research, education and advocacy.

There is currently a shortage of opportunities for standardised training in the field in many parts of Asia. I believe ISUOG will have a significant role in providing high-quality education in ultrasound and research. Together with the help of regional ambassadors, I anticipate that membership in Asia will increase dramatically in the next 3 years, with the aim to host the World Congress in China in the future. Leveraging my position within the FIGO NCD and Pregnancy Committee, I would also like to encourage collaboration with FIGO in order to make ultrasound accessible to all women."

- Prof. Liona Poon

Meet one of our Travel Grant winners from Berlin

Every year, ISUOG makes up to six [Travel Grants available](#) for young researchers from under-served regions to attend our World Congress.

"I take this opportunity to thank you from the bottom of my heart for enabling me to attend the 29th World Congress on Ultrasound in Obstetrics and Gynecology in Berlin as a Travel Grant winner. This was an academic feast for me with a platter of various obstetric and gynecological imaging talks."

Attending the oral presentations and going through the large number of e-posters gave me an insight to the research being done worldwide. I learnt many new things and feel a little more knowledgeable. It is such continuing education which enables us to improve our practice and provide better patient care. I thoroughly enjoyed the conference, the hospitality and, yes, the table tennis boards were a great idea to keep the accompanying persons busy."

I would love to attend the World Congress every year and also recommend the same for those practicing obstetric and gynecological imaging. ISUOG rocks!!"

**- Dr. Jha Anamika, Nepal
ISUOG Travel Grant winner 2019**

Volunteer with one of our Committees

We are recruiting! Find out how you can play a critical role in creating curricula and developing online content by getting involved in the [Online Education Task Force](#) or [CME Task Force](#).
