

## ISUOG Newsletter

August 2020

The ISUOG Virtual World Congress will allow us, without the need to travel, to learn about the latest news in our speciality, to receive CME, in the new framework of a Virtual Congress, with all its dimensions to watch live or [on demand](#):

- Respected international experts, such as Kypros Nicolaides, Rabih Chaoui, Simon Meagher, Antonia Testa and Thierry Van den Bosch
- [Exceptional plenary talks](#)
- Lively discussions among experts, on prematurity, pre-eclampsia, screening for fetal anomalies, ultrasound to investigate and manage subfertility in women with endometriosis, managing early pregnancy complications, ultrasound to manage oncology patients and much more!
- [Workshops](#)
- Scan, procedures and surgery demonstrations
- Oral and poster communications about the latest research
- The most recent recommendations for practice
- The most incredible clinical observations
- [Masterclasses](#) by key opinion leaders
- Exhibitors, industry meetings, networking

Everything, absolutely everything, you like about our annual Congress, and much more, will be available, thanks to the work of the ISUOG team, the Board of Trustees and the Scientific Committee. This virtual congress is built around a latest-generation technological platform, which will allow us to join together at a never-before-seen level.

We cannot wait to see you at the ISUOG Virtual World Congress!

Kind regards,

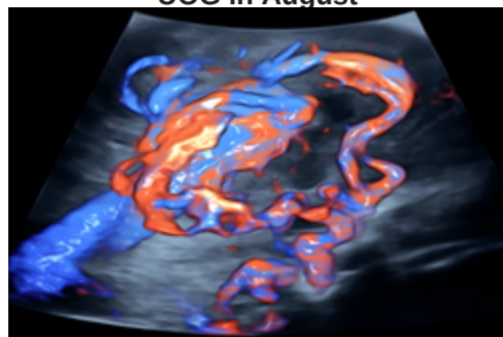

Laurent J. SALOMON  
ISUOG Trustee  
Chair of the Scientific Committee

Early bird discounts finishes in 12 days

### UOG in August

The [August issue](#) includes a series of papers on [fetal cerebral Doppler assessment](#) in the context of fetal growth restriction, including the TRUFFLE-2 feasibility study, as well as a study on the [contribution of single-gene defects to congenital cardiac](#) left-sided lesions in the prenatal setting, a study on serial endometrial thickness and the [risk of non-endometrial hormone-dependent cancers](#) in postmenopausal women, and [new ISUOG Practice Guidelines](#) on the diagnosis and management of small-for-gestational-age fetus and fetal growth restriction.

Your support of the White Journal is crucial to its success so [become an ISUOG journal member](#) and access all of the content today!

[UOG Highlights](#)

### Watch our Virtual Congress video

Want to know more about the Virtual World Congress? Our introduction video is now available on the ISUOG website. It highlights that we are the only large OBGYN congress happening this year, that the event will be taking place over 3 days, with 5 streams and that we have 200 esteemed international faculty. The video also announces that the overview of the [program is available online](#).

### New lectures available to watch

[Become a member](#) to access the content, from our [29th World Congress on Ultrasound in Obstetrics and Gynecology, in Berlin](#), by top speakers on topics such as:

- Myelomeningocele repair: from prenatal evaluation to postnatal outcome
- The impact of periconceptional parental alcohol exposure on embryonic growth trajectories using 3D ultrasound and virtual reality
- Clinical application of ultrasound in the planning of rectal and bladder endometriosis surgery

[Watch lectures now](#)

### New! Basic Training Flex

Learn or brush up your knowledge on the essential topics in ultrasound in obstetrics and gynecology with our latest education offering, Basic Training Flex. In addition to learning from the state-of-the-art curriculum, delegates will also have the opportunity to attend live webinars every week, watch live scans, and have their questions and doubt addressed by experts in the field. BT Flex program, including the live webinar, will be free for all to attend with the possibility of getting ISUOG certification at the completion of the course.
